

## Conference Notification

The 3rd International Conference on New Energy and Optoelectronic Materials (NEOM2025), will be held on June 21-23, 2025 in Kunming Yunan Conference Hotel (昆明云安会都酒店), China. The conference is organized by the College of Mechanical Engineering, University of South China, and co-organized by the Department of New Energy Materials and Devices of East China University of Science and Technology, Advanced Battery Technology Center, Harbin Institute of Technology (Weihai), Thin Films Society, Hunan Provincial Key Laboratory of Emergency Safety Technology and Equipment for Nuclear Facilities, USC, Dongguan Guanyi Automation Technology Co., Ltd.

Focusing on recent and appealing novel materials for optoelectronics, the 3rd International Conference on New Energy and Optoelectronic Materials (NEOM2025) aims to provide an opportunity for physicists, chemists, engineers, biologists, and other specialists on an international platform to communicate in a team and to interact, facing and solving new scientific and technological challenges, and to inspire more advanced ideas.

NEOM2025 welcomes research from all energy materials related areas– whether applied, experimental or theoretical and showcases high quality keynote speeches, invited talks, oral and poster presentations of refereed papers. All paper submissions will be peer reviewed by at least 2-3 independent reviewers based on research novelty, technical excellence, or unique applications in the real world.
